

Project Managers Insurance – PMI Members

5 reasons why Perrymans are the PMI partner for member insurance benefits.

Our Experience & Knowledge

We have 40 years' experience in running member insurance facilities. We have been advising Project Managers for more than 20 years and have run a specific membership insurance facility for Project Managers for close to 15 years.

Our Products & Systems

In consultation with your industry, we have identified the requirements and scripted insurance covers specifically for the Project Management sector. Our tried and tested systems mean quick turnaround for most risks.

Our Markets

Our underwriting markets understand the Project Management Industry. We have secured longstanding, stable markets for the majority of risks. For more complex risks we have access to both local and overseas markets, ensuring we can deliver results when needed.

Our Advice & Service

At Perrymans, you have access to Project Management aware brokers. Client focussed and a personalised approach to service in all dealings. From analysis, design, advice and service – to successful claim outcomes, which all result in peace of mind for your members.

Your Advantage

Our experience shows that value driven benefits from experienced operators deliver a positive impact of membership attraction and retention.

Why Perrymans?

Our Experience & Knowledge

"...experience and knowledge provide distinct advantages...members benefit"

Experience and knowledge provide distinct advantages and deliver significant benefits.

1

For 40 years we have been advising on and arranging member insurance programs for specific industry sectors. We have a particular specialisation in Project Management having been instrumental in educating insurers as to the role of the Project Manager. We developed and run a member based Professional Indemnity & Liability Insurance facility for Project Managers, which has been operating successfully for close to 15 years.

Your Members benefit from our experience in the sector industry.

Our Products & Systems

"...we have developed broad and meaningful insurance protection for the Project Management Industry..."

2

Through the combination of our knowledge and experience we have developed broad and meaningful insurance protection for the Project Management Industry. Further enhancements and product development can be undertaken depending on the association's requirements.

With our significant experience in running a project management insurance facility, we have developed systems that make arranging cover a simple process for the majority of risks. We have easy to complete documentation specifically tailored for your industry.

Our Markets

"Our underwriting markets understand Project Management..."

3

Many insurers fail to understand the role of a project manager. They are often "lumped" into other occupations and end up paying dearly for the wrong cover. Through our efforts, our underwriting markets understand the Project Management Industry. We have longstanding, stable and secure market relationships for the majority of risks. For more complex risks we have access to both local and overseas markets ensuring we can deliver results when needed.

Our Advice & Service

"...the right advice and service leads to a better outcome..."

4

We all know that the right advice and service leads to a better outcome. Experienced personnel, through proven processes, delivers the right result - saving members time, money and complication.

At Perrymans members have access to Project Management aware brokers who are client focussed and are there to work with members; from arranging cover that suits their needs, through to successful claim outcomes.

Your Advantage

"...value driven benefits...deliver a positive impact on attracting and retaining members..."

5

Our Experience + Products & Systems + Markets + Advice & Service = One Thing...**Your Advantage!**

Our experience with other associations shows that value driven benefits, such as member specific insurance cover, provided through proven and experienced operators, delivers a positive impact on attracting and retaining members.
